Rock School is a program that allows young amateur musicians to experience the level of musicianship, commitment and dedication it takes to succeed in today's music world. Students will maximize their music potential by building solid instrument skills, applying music theory to compose and improvise, gain practical experience in live performance and recording.

Mini-Mozart: designed to create an active interest and appreciation in music for young beginners while providing the student with a solid foundation for more advanced music education. Children at the ages of four and five absorb and retain sounds better than at any other time in their lives, which makes it the perfect time to start music lessons. These in-class musical experiences will encourage creativity, discipline, music appreciation, and help instill the basis for playing and expression through feeling and understanding music. (3.5-6 years, parent participation required)

Keyboard: A great alternative to traditional piano methods that assume every student wants to be a classical pianist. Students learn whole note reading, chord theory and improvisation while playing music from Back to Rock. (7-18 years)

Guitar: Students play along with pre-recorded backing tracks as the instructor walks thru song forms and demonstrates required playing techniques at the same time lyrics, chords and tablature are laid out. (Guitar required) (7-18 years)

Drums: Designed for anyone who wants to play drums in a band. Students will explore topics such as finding the "pocket", building a "groove" fill-ins, soloing and the art of practice. (Drum sticks Required)(7-18 years)

RockSchool: Is a program that allows young amateur musicians to experience the level of musicianship, commitment and dedication it takes to succeed in today's music industry. Students will maximize their musical potential by refining instrument skills, apply music theory to come up with musical parts, improvise and create musical arrangements
