Total Prize Pool = (Total Number of Participants in Pool) × (Buy-In Amount) × 80%

Each buy-in level is treated as a separate prize pool, meaning anglers are only competing within their chosen buy-in category. The prize money for each buy-in level is only distributed among participants who entered that specific buy-in amount. Banking Account number and Routing number must be provided to receive winning payout. No CASH will be handed out on the day of tournament conclusion. All winnings will take 12-14 business days to be deposited in to winning angler's account.

The prize money is distributed among the top winners based on the specific buy-in category:

1st Place: 50% of total pool

2nd Place: 30% of total pool

3rd Place: 20% of total pool
